

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE

Because of the great progress in work with boys and the demand for material relating to such work, as well as the author's interest in boys' work, this bibliography has been compiled.

Included within this work will be found nearly four hundred and fifty references from the bibliography of J. T. Bowne, published by the International Committee in 1906, making in all approximately fifteen hundred titles. One hundred and fifty of these are books, while the rest are magazine articles.

I have endeavored to include only those books and articles of real reference value to workers among boys. Among many periodicals the following have been indexed: *The Pedagogical Seminary*, 1891-1917; *Association Boys*—now *American Youth*, 1902-1917; *Association Outlook and Seminar*, 1897-1917; *Association Men*, 1906-1917; *How to Help Boys*—now *Work With Boys*, 1901-1917; *Religious Education Magazine*, 1906-1917; *Survey*, 1912-1917; National Education Association Reports, 1906-1917; *American Physical Education Review*, 1900-1917; *Rural Manhood*, 1910-1917.

In compiling this bibliography I am indebted to those who have given their valuable aid. To Professor Burr I extend my thanks for his many helpful suggestions and criticisms. Especially am I indebted beyond measure to Miss Carr and Mr. J. T. Bowne of the College Library for their most generous aid. Inquiries for further information may be addressed to Library Y. M. C. A. College, Springfield, Mass.

EDITORIAL NOTE

The original of this bibliography was submitted in June, 1918, for the degree of Bachelor of Humanics at the International Y. M. C. A. College, Springfield, Mass. Later, the compiler went overseas with the American Army, and in his absence the undersigned were rash enough to offer to see the book through the press. Valuable additions were made by International secretaries, E. M. and C. C. Robinson, F. H. Cheley, E. C. Foster, A. N. Cotton, and others.
